Inside FOOGO Green

As a company dedicated to creating sustainable dinnerware solutions, our journey began with a profound observation of eco-friendly practices in Asia. We were inspired by their innovative use of natural materials and traditional methods that emphasise minimal waste, realising the potential for change. This sparked our mission to combat the global reliance on single-use plastics for all catering needs.

We believe in harmonising the needs of people and the planet, offering a comprehensive range of high-quality, earth-friendly catering supplies.
